

Wurlitzer IR Remote Control

This Infra-Red (IR) remote control is a brand new, aftermarket direct replacement to suit the I84 series of Wurlitzer jukeboxes.

It replaces the original remote control (pictured below) supplied by Wurlitzer for jukeboxes released before the K99 series.

This remote control works on any Wurlitzer Jukebox fitted with the TELECONTROL 40089 remote decoder and IR receiver modules.

TELECONTROL 40089

I84 Series Wurlitzer
IR Remote Control

For the IR functionality to operate the TELECONTROL module must be connected as the jukebox volume control.

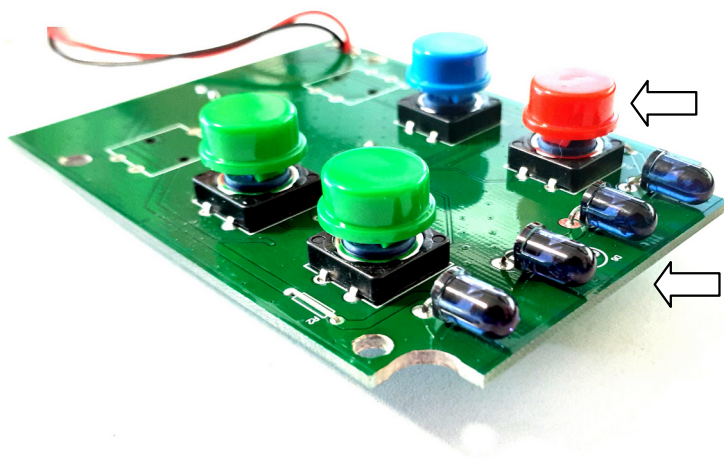

Refer to your Jukebox user manual for more information.
